PRESIDENT'S MESSAGE

The weather has turned nice and I hope everyone has had a chance to get those Falcons out on the streets.

I've talked to Dave Elledge, Sooner Chapter President, and he says everything for the FCA National Meet in Oklahoma City is coming on strong. Start making plans to be there in August.

The Pacific Regional Meet in Sacramento is coming along great according to Ron Wilson of the River City Chapter. I also talked to Russ Hoeksema, Eastern Regional Director, and he said the Sunshine State Regional Meet hosted by the Suncoast Chapter is coming along very well. It would be very helpful to these hosting chapters if you would pre-register as soon as possible. It helps them in many ways in planning these meets, plus saves you money.

If you have any suggestions or comments about the FCA let your officers or directors or myself know so we can place them on the agenda for discussion at our next FCA National meeting in August. Have fun with the Falcons.---Jim Hatcher, President FCA

HAVE YOU SEEN IT?

Many PBS TV stations are currently carrying a program titled CLASSIC CAR SHOP. It is a very good program for tips and techniques for restoration/repair, as well as tools. Look for this program in your TV schedule. If it is not being carried just now by your PBS station, contact them and ask for it.--The Editor.

VICE-PRESIDENT'S MESSAGE

I hope all of you noticed the article that Bronson included in the March issue of THE FALCON BULLETIN. I hope even more that all of you have taken the time to submit an article of interest to him.

I'll kick it off with one of my own now.

When you pull your new FL1-A filter out of the box, take a black "Marks-A-Lot" broad felt tip pen and write the mileage and date around the unprinted portion of the sealing edge of the filter--do this by placing the numbers in three equal spaces. Place the filter back in the box with the gasket up--now pour about half a quart of oil into the hole, smear a little oil around the gasket, now check that the old filter didn't leave its gasket stuck to the block surface, spin the new filter on good and tight, then start the motor (you did remember to add oil to the crankcase). The oil pressure light will go out immediately. Check for leaks with the engine running, and now get out there on the streets where people can appreciate that Falcon!--Love ya all, Marty Martin, Vice-President FCA

FROM THE HENRY FORD MUSEUM AND GREENFIELD VILLAGE, DEARBORN, MI

Recently an auto club newsletter printed an article in their publication suggesting that the Archives Department here at the Henry Ford museum contained original production order cards for Ford Motor Company vehicles. It suggested that individuals could obtain copies of these production cards by sending us \$5 along with their VIN. UNFORTUNATELY THIS INFORMATION IS NOT AVAILABLE FOR FORD VEHICLES. We do have production cards for some Lincoln vehicles between the years 1936-1948.

A retraction was printed but the information was picked up by other clubs and the letters keep pouring in. We must return each letter and fee to the mutual inconvenience of all parties concerned.

We hope this clarifies the situation and apologize to any collectors who have been inconvenienced.

TECHNICAL HELP WANTED

****Need info on coil spring lower mounting bracket for a 64 Falcon. I changed mine from 6 cyl to V8 and put new V8 coil springs and shocks. The shocks go in the opposite direction of the coil spring. I am wondering if there is any difference between 6 cyl and V8 coil spring lower mounting bracket. Raymond V. Bourque, Canning NoS RR #3, Kings Co., BOP-1H0, Canada.**

****I own a 63 Fordor Falcon and am going to replace the rear quarters to repair some rust damage. I have new quarters and the "dogleg." The outer wheelhouses are not available for 60-63 Falcons. So I have two questions: 1) is there a source for wheelhouses? 2) has anyone out there in Falconland done any repair work of the outer wheelhouse and how did you do it? Some of our local bodyshops have suggested making a repair panel, as only the outer 1-2 inches are rusted, but this does get expensive. Thanks in advance for any help. Scott Simpson, 1715 S. Berlin Ave., New Berlin, WI 53151. (414) 782-1937.**
